THURSDAY, APRIL 30, 1908.

At the finding of that big lot of
double eagles gold pieces by a man
who labored in Louisville the other
darky laborers just shook their
heads and said, "They're a bunch of
people; that is, they fought for
the yellow stuff like hungry tigers
over a census. Under such cir-
cumstances human nature is the
same among all races everywhere."

A decision of the U. S. Supreme
Court that negroes and colored
men were not legal residents of
the State in which the divorce
granted to Negroes here were
such divorce persons are illegal
and the children of such un-
technically illegitimate. Many thou-
sands of people here are now
prohibited in consequence and
relief legislation is needed.

The great destruction wrought
in San Francisco and subsequent
fire at San Francisco from shortly
after 5 o'clock Wednesday morn-
ing of last Friday night has been the
absorbing topic of interest throughout
the civilized world. In loss of
property it was the greatest
loss ever suffered by any city in
the United States, surpassing even the
great Chicago fire, while the loss
of life and property found to be
over 100,000 persons. Measures for
feeding and sheltering the vast num-
ber of homeless people was promptly undertaken on a large
scale by the Federal govern-
ment and many other agencies.
Nearly fifteen million dollars had
been appropriated and made in
readiness to meet the emergency
as the deadline up to Sunday. All
ready plans are being made to re-
build the city on a scale of even
greater grandeur.
